Independent auditors' report on review of interim condensed consolidated financial information

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Palms Agro Production Company K.S.C.P ("the parent company") and subsidiary (together referred to as "the group") as at 30 June 2016, the related interim condensed consolidated statements of income and comprehensive income for the three month and six month periods then ended and the related interim condensed consolidated statements of changes in equity and cash flows for the six month period then ended. The parent company's management is responsible for the preparation and fair presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review

Except as explained in the following paragraph, we conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim condensed consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for qualified conclusion

The group investment in Al Dhafra Irrigation Systems L.L.C "Al Dhafra", a foreign associate accounted for using the equity method, is carried at KD 1,127,421 (31 December 2015: KD 1,123,729 and 30 June 2015: KD 1,196,785) on the interim condensed consolidated statement of financial position. The group share of Al Dhafra net income of KD 9,541 (30 June 2016: losses of KD 78,081), and the exchange differences arising on translation of foreign operations relating to Al Dhafra of KD 5,849 loss (30 June 2015: KD 34,395 gain) are included in the interim condensed consolidated statement of comprehensive income. We were unable to review the carrying amount of the group investment in Al Dhafra as at 30 June 2016 and the group share of Al Dhafra net income and other comprehensive income for the period ended 30 June 2016. Had we been able to perform a review of Al Dhafra financial information for the six-month period ended 30 June 2016, matters might have come to our attention indicating that adjustments might be necessary to the interim condensed consolidated financial information.

Report on Other Legal and Regulatory Requirements

Furthermore, based on our review, nothing has come to our attention indicating that the interim condensed consolidated financial information is not in agreement with the books of accounts of the parent company. We further report that, to the best of our knowledge and belief, we have not become aware of any violations of the Companies' Law No. 1 of 2016, provisions of Law No. 7 of 2010 concerning the Capital Markets Authority and its related regulations during the six month period ended 30 June 2016 that might have had a material effect on the business of the group or on its financial position.

2 Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
3 Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

12 FAIR VALUE ESTIMATION (Continued)

(i) Financial instruments in level 1

The fair value of financial instruments carried at fair value on recurring basis traded in active markets is based on quoted market prices at the reporting date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the group is the last bid price.

The fair value of financial assets and liabilities measured at amortised cost approximates their carrying amounts.
